

VG 308

DOUBLE-SIDED FOAM TAPE

Venture Tape VG 308 Double-Sided Foam Tape is a closed cell polyolefin foam tape with a unique differential adhesive system specifically designed for mounting, sealing, gasketing, and sound and vibration damping applications.

The exposed side adhesive is specifically designed for adhesion to PVC and other low surface energy materials. The liner side adhesive is designed for adhesion to glass, painted and unpainted metal, wood, and plastics as well as other natural and synthetic building and construction materials.

Versatile adhesives, combined with resilient polyolefin foam, provide optimum performance, weather resistance, and durability for a broad range of demanding applications.

FEATURES & BENEFITS

- Optimum compatibility and performance with PVC, aluminum, wood, and other low surface energy materials
- Higher density foam provides excellent structural, sealant, and durability properties
- Differential adhesive system provides optimum surface compatibility and field performance
- Exceeds A.A.M.A. Specification #810.1-92, Type 1

PRODUCT SPECIFICATIONS

| Product Number | Thickness | Width | Length | Color |
|----------------|--------------|-------------|-----------|-------|
| VG308W-Q340 | 1/8" (3.2mm) | 3/4" (19mm) | 85' (26m) | White |

Order Online, 24 hours a day, NO MINIMUM ORDER.
